

Eton Choirbook Discography

Compiled by Jerome F. Weber

In its original form, this discography was first published in *Early Music Review* (No. 139, December 2010) in conjunction with editor Clifford Bartlett's review of the facsimile of the book prepared by Magnus Williamson and published that year by Oxford. A number of additions and corrections have been made. This version has been formatted to match the Du Fay and Josquin des Prez discographies on this website. The works are listed alphabetically and identified by the index numbers in the facsimile edition. The recordings are arranged chronologically, citing conductor, ensemble, date of recording if known, and timing if available. Following is the issued format (78, 45, LP, MC, CD, SACD), the label, the issue number(s) and album titles; SoundCloud is a downloadable website.

Forty-three out of 64 titles have been recorded. A composer index has been added at the end. Thanks are due to Magnus Williamson for his website and his replies to some questions.

Additions and corrections may be conveyed to the compiler for inclusion in a revised version of the work. Go to Chantdiscography.com and click on 'contact us'. A scan of a CD booklet that provides needed data would be invaluable.
