

# Josquin des Prez Discography

Compiled by Jerome F. Weber

This discography of Josquin des Prez (Josquin Lebloitte dit des Prez), who has been indexed as Josquin Desprez, Des Près, and Pres, adopts the format of the Du Fay discography previously posted on this website. This work lacked the advantage of a first version in *Fanfare*; it was possible in the 1980s to find rare early records in libraries and archives. The name is spelled here as Edward E. Lowinsky proposed in 1971. It may be noted that at least three book titles since 2000 have named him simply “Josquin,” bypassing the spelling problem.

Acknowledgment is due to Pierre-F. Roberge and Todd McComb for an exhaustive list of records containing Josquin’s music in [www.medieval.org/emfaq](http://www.medieval.org/emfaq). I incorporate listings from the work of Sydney Robinson Charles in *Josquin des Prez: A Guide to Research* (Garland Composer Resource Manuals, 1983) and Peter Urquhart in *The Josquin Companion* (ed. Richard Sherr, Oxford, 2000), which continued where Charles left off. The last two lists each included a title index. This work has also used the following publications already incorporated in the three cited discographies. The 78rpm and early LP eras were covered in discographic format by *The Gramophone Shop Encyclopedia of Recorded Music* (three editions, 1936, 1942, 1948) and *The World’s Encyclopaedia of Recorded Music* (three volumes, 1952, 1953, 1957). James Coover and Richard Colvig compiled *Medieval and Renaissance Music on Long-Playing Records* in two volumes (1964 and 1973), and Trevor Croucher compiled *Early Music Discography from Plainsong to the Sons of Bach* (Oryx Press, 1981). The *Index to Record Reviews* compiled by Kurtz Myers (G. K. Hall, 1978) provided useful information. Michael Gray’s [classical-discography.org](http://classical-discography.org) has furnished many details. David Fallows offered many valuable suggestions. Stephen Grabow identified the contents of a rare CD.

Works are listed alphabetically in three groups: Masses (page 2), Motets, including all other Latin-texted works (page 11), and Songs (page 44). Works published in the New Josquin Edition (NJE) are identified by number. Dubious or unauthentic works are italicized, largely following the works list in *The New Grove Dictionary of Music* (2000). The recordings of each work are arranged chronologically, citing conductor, ensemble, date of recording if known, and timing if available; then the format of the recording (*ac*, 78, 45, 33, LP, 45LP, *LP quad*, MC, CD, SACD, DVD), the label and the issue number(s). Each recorded performance is indicated, if known, as: with instruments (*w/i*), no instruments (*n/i*), or instrumental only. Album titles of mixed collections are added. The data on unavailable recordings, based on available information, have not been confirmed. Many entries (those that lack timings, more or less) have not been available for confirmation of all details. The first sixteen recordings (of eighteen works) and the first six complete Mass recordings are numbered. Four motets and four songs are unrecorded.

May 2016; revised January 2017; revised January 2018; revised January 2019; revised September 2019; revised August 2020; revised December 2020; revised June 2021; revised January 2022; revised August 2022

In the same series: discographies of composers and subjects ranging from the 12th to the 16th centuries.
